

# Powdered Integral Color

FOR TECHNICAL ASSISTANCE PLEASE CALL 800-483-9628

The colors on this color chart are approximate, using laboratory samples of troweled concrete made from a 6-sack mix, using Type II Gray Portland Cement, Silica Sand, and water to achieve a 4 inch slump. Different colors in cement, as well as some sands and water content will result in different colors. Available in custom packaging up to 50 lbs per bag. Please note that custom sizes are packaged in dissolvable paper bags only. Custom packaging does NOT include an inner plastic bag. Different types of finishing techniques and curing methods will alter the finished appearance. A job-site sample or test slab should be done, using the specified materials, as well as the finishing and curing techniques that will be used on the project. Batch-to-batch uniformity must be maintained to produce consistent color.

**EARTHEN**  
1 BAG PER 2 YARDS<sup>3</sup>

**RAWHIDE**  
1 BAG OF EARTHEN EQUALS  
1 YARD<sup>3</sup> OF RAWHIDE

**BUCKSKIN**
